

Sydney Oculoplastic Fellowship

The Sydney Oculoplastic Fellowship involves working at multiple tertiary hospitals and renowned private hospitals, in Sydney - Australia. It focuses on advanced training in orbital, lacrimal and eyelid surgery (adults and paediatric) as well as in aesthetic face and eyelid surgery. It's one of few international fellowships with exposure to paediatric oculoplastic surgery and aesthetic surgery.

The fellowship is based at Westmead Hospital, Children's Hospital Westmead, Royal Prince Alfred Hospital and Liverpool Hospitals. All the hospitals are principal teaching hospitals of University of Sydney or University of NSW. The fellow will also be working with ENT, Head and Neck, Plastic surgery, Mohs dermatologists and Neurosurgery teams in multidisciplinary management of complex cases.
